

Escape Soft seating

Escape Soft seating

Most soft seating is designed for simply sitting – not for working. Escape gives you the best of both worlds, enabling you to create versatile spaces where people can catch up, relax or work quietly.

All Escape seating, from single chairs to sofas is designed to be as ergonomic as possible, making it easier to work where you sit. Higher seat backs can be used to divide areas and create a sense of privacy.

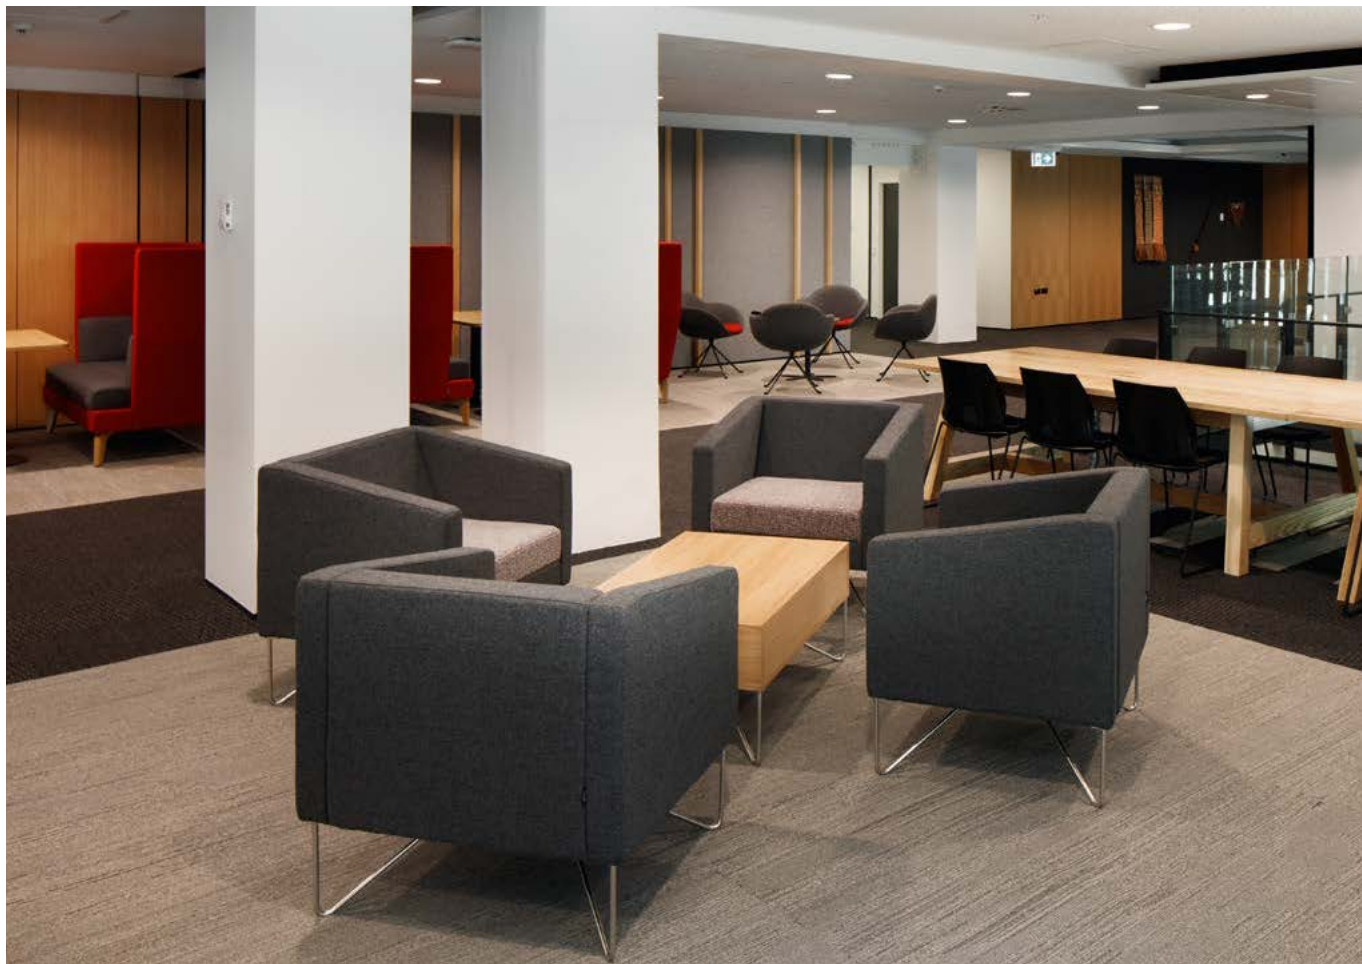

All modular pieces in the Escape range are designed to be as ergonomic as possible. Units can be customised to suit your floorplan and team requirements..
